

EXPERIENCE THE QSI ADVANTAGE

Specializing in Complete Post Frame Buildings

WHY CHOOSE OUR POST-FRAME CONSTRUCTION?

Thank you for your interest in Quality Structures, Inc. With two decades in the postframe construction business, we provide attentive, hands-on support during each step of the planning, design, and construction process. We believe you'll agree that choosing QSI will provide the best value and workmanship for your new building, whether you are looking to build a barn, hobby shop, business, or home.

We offer free estimates and on-site consultations. We are fully licensed and insured, our buildings are engineered to meet or exceed local building codes. Standard stud wall buildings are also available. We take great care of our customers and value the trust they place in us to take care of a wide range of building needs.

A HISTORY OF EXCELLENCE WITH QUALITY STRUCTURES, INC.

Originally founded in 2003, QSI has evolved over the years. Now owned by Rob Pearce, QSI operates offices in Richmond, Haven, and Scott City, Kansas; as well as Glenwood, Iowa; and St. Paul, Nebraska.

Our growth would have been impossible without our dedicated, hard-working team of employees who are committed to constructing high quality, competitively priced buildings in a timely manner. We take our reputation for quality and integrity very seriously whether we are dealing with customers, suppliers, subcontractors, or other professional associates.

CHOOSING POST-FRAME CONSTRUCTION

Efficiency

Any structural addition to your property is an investment. Compared to a steel or brick building, a Quality Structures building will cost you less in labor and materials and will be ready for use in a fraction of the time. Superior insulation and weather resistance are additional features that safeguard your long-term investment.

Durability

Post-frame buildings from Quality Structures are strong and durable, offering you peace of mind in a region known for high wind and storms. Because we use more lumber than our competitors, closer spacing on our columns and trusses and our increased bracing ensure a QSI building will serve your needs for years to come.

Flexibility

Whether you are looking for a garage, hobby shop, barn, or residence, Quality Structures Inc. offers unsurpassed flexibility, efficiency, and strength. Our post-frame buildings allow you to design according to your exact needs.

STRENGTH

- Engineered to Meet or Exceed Local Codes
- 115 mph Wind Load
- 30 lb. Ground Snow Load
- Trusses Designed for a Ceiling Load
- Roof and Wall Wind Bracing

TRUSTED EXPERTISE IN A WIDE VARIETY OF STRUCTURES!

Garages and Hobby Shops

Is it time to dedicate more space to the hobby or pastime that fulfills you? If so, let us work with you to design the perfect garage, hobby shop, RV or boat storage building, or garden shed. We'll build a sturdy structure for you in a fraction of the time and save you money over other methods of construction so that you can get back to the hobbies you love with all the room you need.

Commercial/Industrial

You carefully built your company, and you need the right building that reflects the image you've created. Our experienced team can help you design and implement every detail, from the ground excavation to the gutter install. We have experience with everything from maintenance sheds to multi-purpose buildings, from buildings for manufacturing to retail to restaurants—and everything in between.

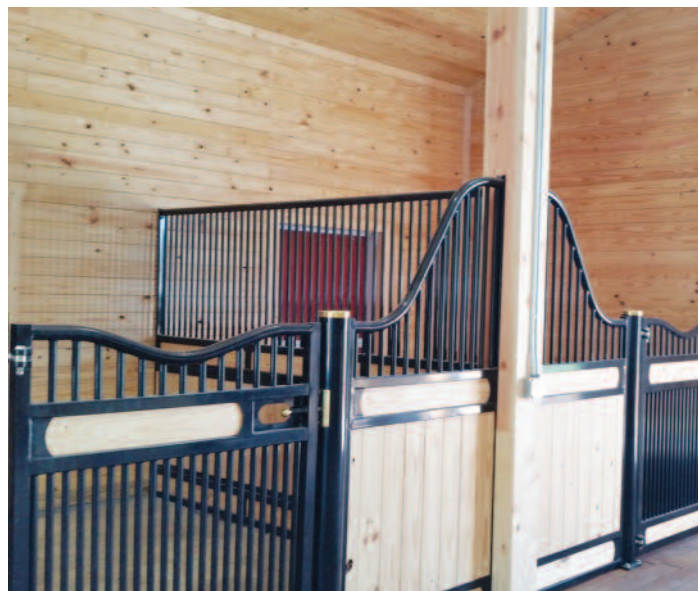

Agricultural Buildings

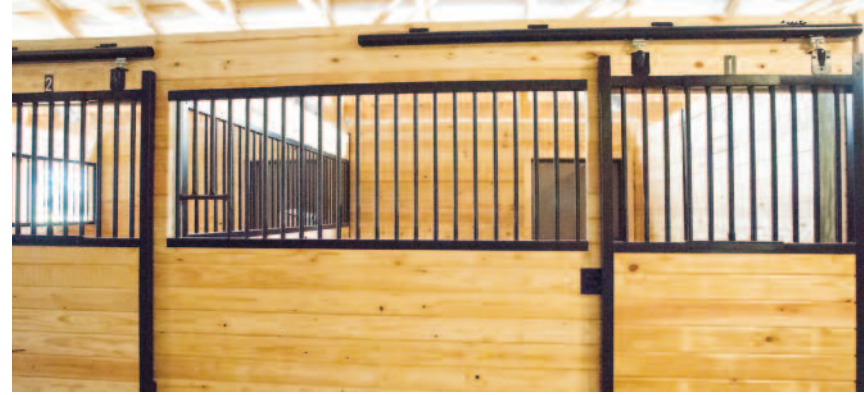

Our agricultural buildings serve a wide variety of needs and can be customized for the important work you do. We are proud that our buildings are not just functional and durable but also attractive additions to your agricultural operation.

Equestrian Facilities/Horse Barns/Arenas

Whether you are looking for traditional, practical, or state-of-the-art equine facilities, we have the look and functionality you need. We offer many aesthetic upgrades and look forward to working with you to select style, design, and color combinations that fit your vision.

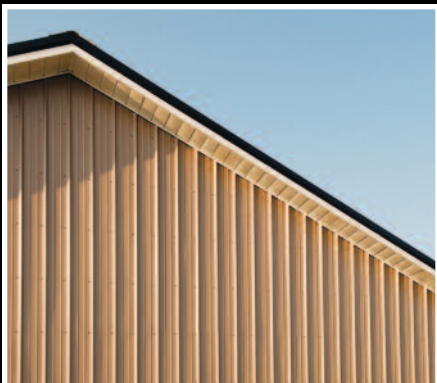

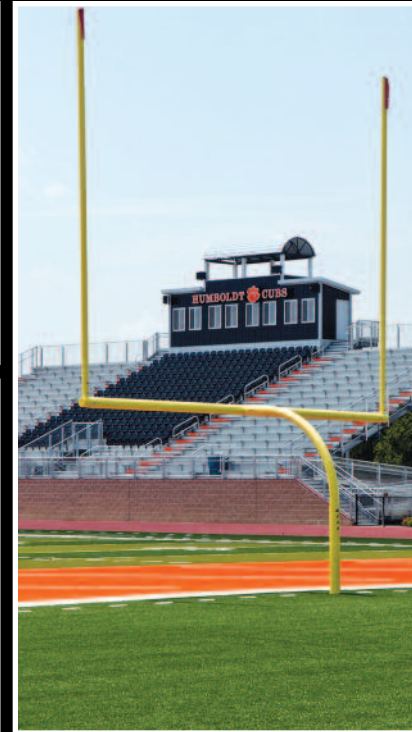

Residential Homes and Floor Plans

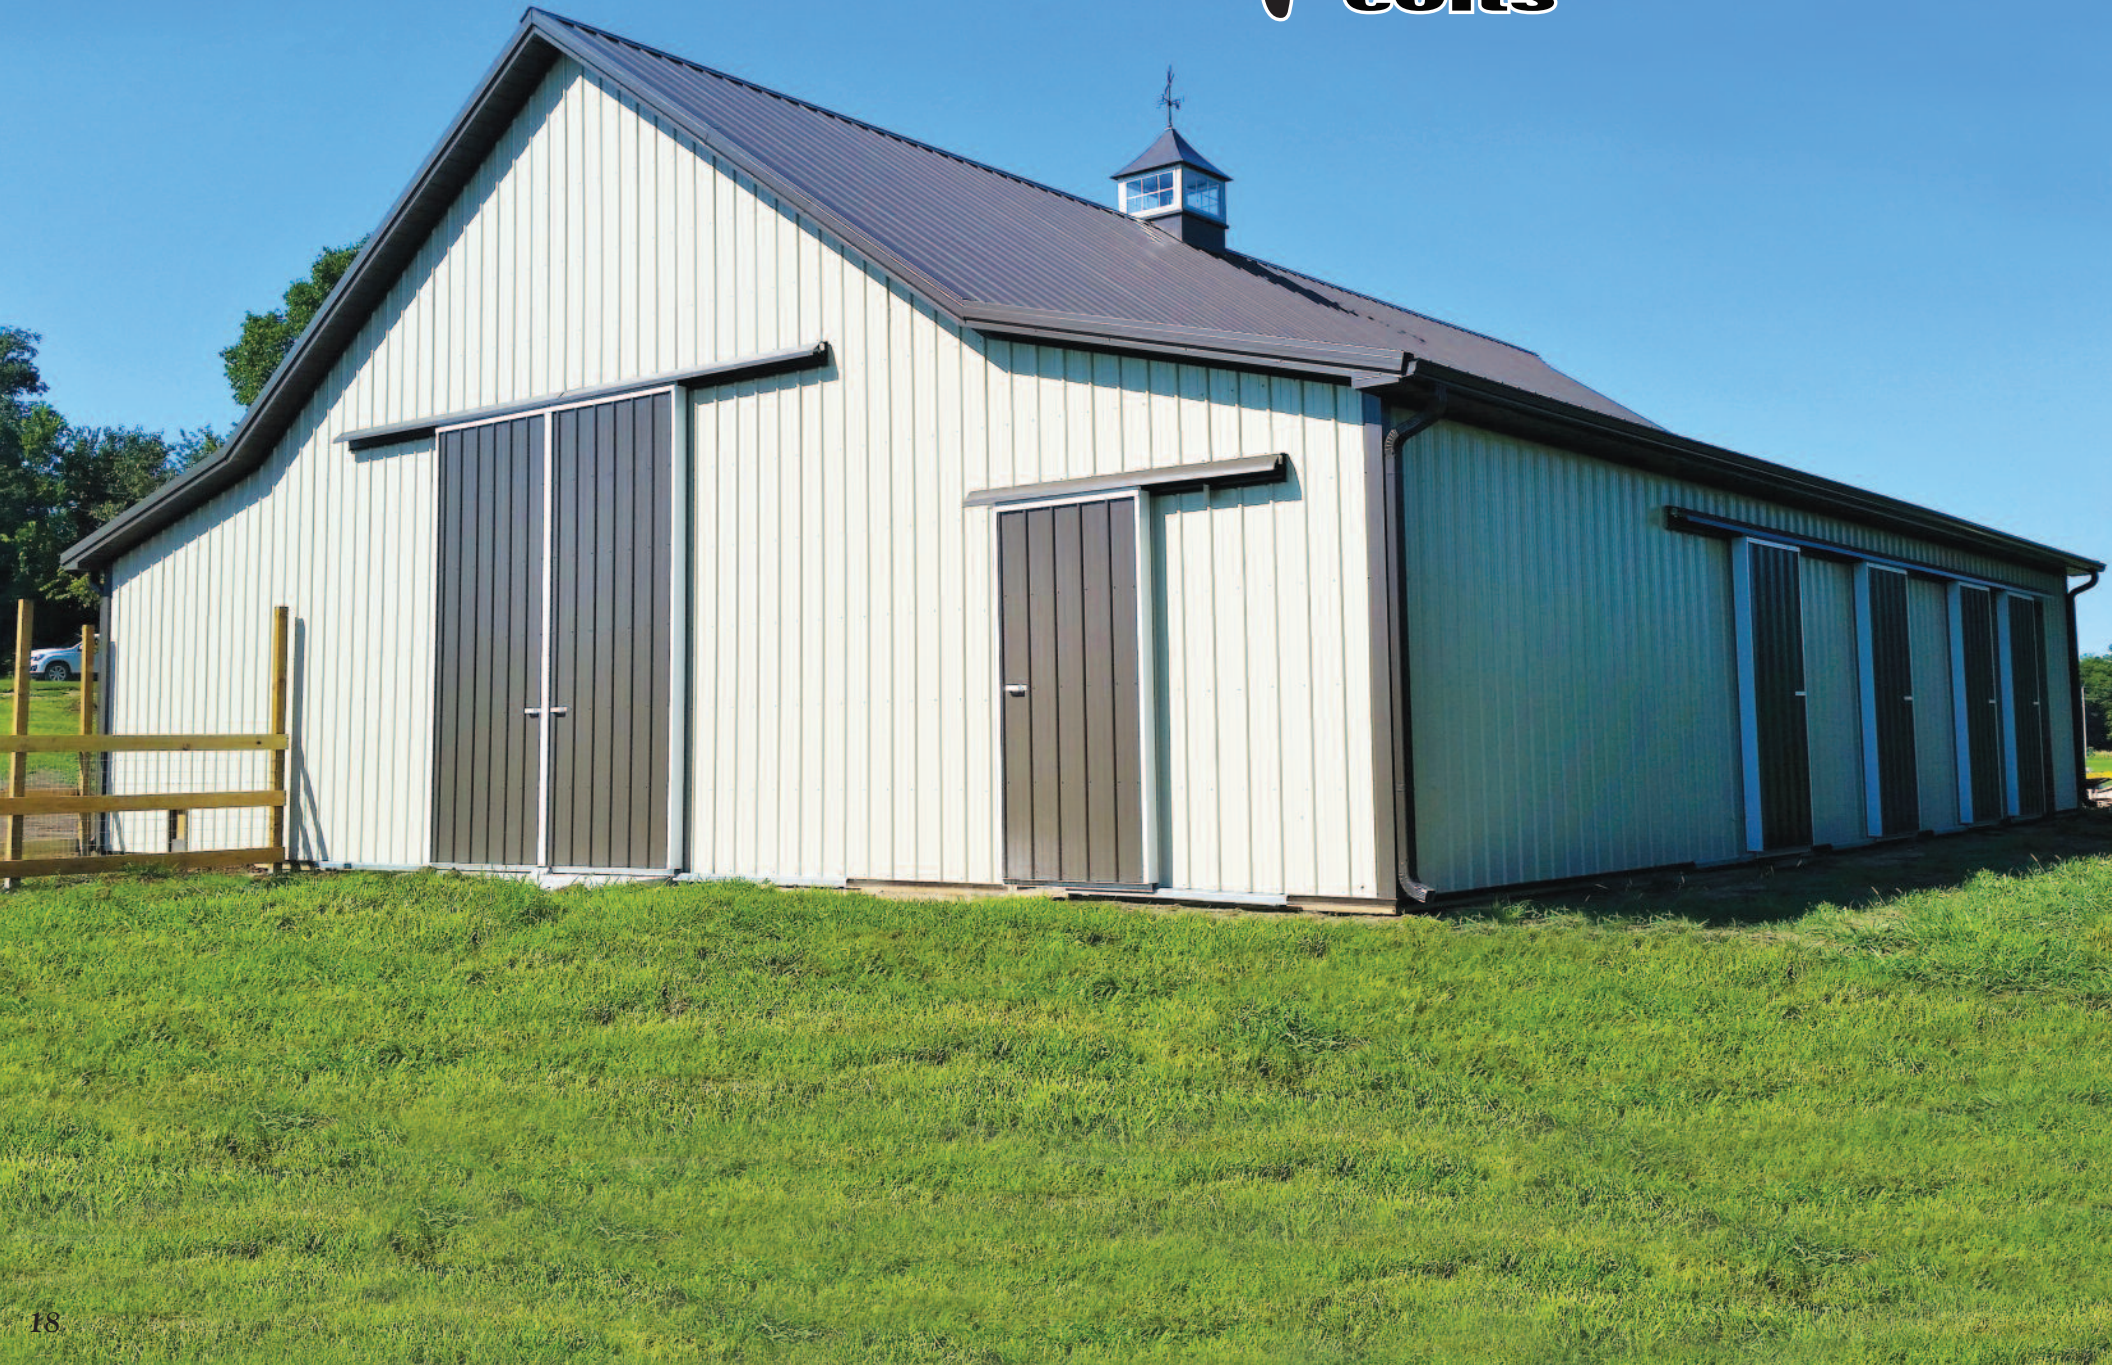

Many people find post-frame construction a durable, maintenance-free choice for their residential construction. We offer affordable exterior shells to suit all budgets. You'll appreciate our clear span truss system, which gives you excellent design flexibility. With non-load-bearing interior walls, you can create the exact floor plan your family needs.

Our exterior walls are up to 7 inches thick, and we use steel roofing and siding. These energy efficient homes provide excellent savings, and we offer a 5-year workmanship warranty.

NEW CENTURY BANK

BUILDING LEASING & MORTGAGE LOANS

Loans or lease, New Century Bank has financing designed specifically for post frame construction. Buyers can choose to lease a post-frame building to save on income tax expense and preserve operating capital. The tax difference between leases and loans involves the deductibility of the payments. Lease financing makes your decision to purchase a post-frame building just as advantageous as other equipment purchase decisions and possibly better. New Century Bank also specializes in post-frame home mortgages and construction lending with a short term construction loan to build your home followed by a permanent mortgage. We have a diverse network of mortgage programs to help you build exactly what you want.

OSI

C.H.I. OVERHEAD DOORS

A BETTER EXPERIENCE

C.H.I. Overhead Doors was built on the idea that garage doors should be exceptional in quality, craftsmanship, and value. As a premier garage door manufacturer, we continue to grow with a dedicated purpose - to provide our customers with the very best in garage doors and service. We offer full lines of residential, commercial, and rolling steel fire doors to meet your exact specification.

The image shows a long, well-lit aisle in a horse barn. On both sides are wooden stalls with black metal bars for the upper portion. The ceiling is made of exposed wooden beams and rafters, with several square pendant lights hanging from it. A large ceiling fan is also visible. At the end of the aisle, there is a bright opening, possibly a doorway or a large window. The overall atmosphere is clean and professional.

CANNONBALL:HNP

QUALITY • VALUE • SERVICE

CannonBall:HNP is a leading supplier of components for the post-frame and metal building industries. Since 1916, CannonBall has offered the most complete and best warranted line of round track products and accessories—including industry-standard Keyhole™ track. Our wide variety of entry doors are manufactured with versatile design and affordable pricing for agricultural, commercial, and metal building projects. Builders also rely on CannonBall for quality Dutch doors, sheeting products, cupolas, horse stalls, windows, builders' hardware, and more.

PARKER TRUSS

ENGINEERED • PRECISION • DESIGN

Our truss designers will engineer your post-frame construction trusses using cutting-edge software to meet your rigorous specifications. We also construct trusses for garages, houses, commercial buildings, and just about every kind of wood construction.

THE BRADBURY CO., INC.

DEDICATED • HIGH-QUALITY • PRODUCTIVITY-ENHANCING

The Bradbury Group manufactures an extensive line of roll forming and coil processing equipment for the metal building industry. Product lines include a variety of manufacturing equipment for metal building panels, overhead doors, insulated panels, purlins, metal trim, and portable roll formers for metal roofing. Bradbury has solutions to integrate production equipment with your ERP or design software and a 24-hour/365-day service hotline to ensure customers are supported in a timely fashion, minimizing down-time.

BRADBURY

THE BRADBURY CO., INC.

SIMONTON

YOUR VIEW – YOUR WAY

New vinyl windows are incredibly energy efficient. There are efficiency options and upgrades that can make them even more efficient; low-e coatings, argon gas fills, and ENERGY STAR certified are options commonly used in extreme climates to offer that extra layer of efficiency.

Your New Building Won't Stay Dry Until You Control Condensation

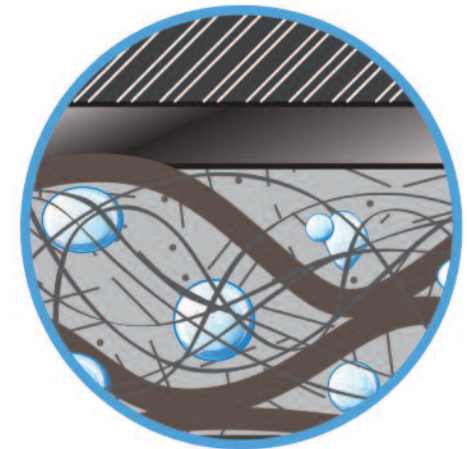

A Necessity For Any Metal Roofed Building That Is Not Climate Controlled

- Post Frame/agricultural buildings
- Steel buildings
- Self-storage
- Workshops/unattached garages
- Open-walled structures
- Carports, truck ports & RV storage

Stop the Dripping from Condensation

When condensation occurs, moisture gets stored in the specially designed pockets of the DripStop membrane.

- Very Durable
- Saves Money
- Avoid Bird Nesting Issues
- Easy to Clean
- Maintenance Free
- Helps fight corrosion

Pockets in the DripStop! membrane trap condensation as it forms.

Factory Applied By
