Dear Friends in Agriculture,

Similar to your mission, we have a passion for helping those involved in agriculture, especially young people.

We created HarvestJobs.us out of a sincere love for agriculture, our country, and a deep desire to fix the American farm labor crisis after learning that nearly 200,000 foreign workers are employed through government visas each year.

Our goal is to make sure Americans are given the opportunity to apply for some of the best jobs available in the country in the agricultural sector.

We have seasonal harvest jobs, part-time jobs and full-time permanent job opportunities in several areas across the U.S.

We are hoping you could advise us on how to proceed to get this information in front of the right people. Please call any of us below.

Thank you for helping us solve the American farm labor crisis.
